Overview

Results-oriented professional with a passion for data, technology, and business, with a track record of extracting value from complex datasets. Certified SAFe® 5 Scrum Master with experience in business analytics, business solution design, and project management. Currently serving as Business Analytics Manager at STMicroelectronics, focusing on Sales Operations support, cross-functional collaboration, and data-driven decision-making. The role involves designing and implementing robust data solutions with an emphasis on microelectronics and supply chain dynamics.

Previously, a Senior Data Quality Analyst at Coca-Cola HBC, responsible for business-led data governance initiatives to ensure high data quality across the value chain. Also served as a Senior Consultant and Team Leader for Capgemini, leading international agile projects for STMicroelectronics. Past roles include data-science consulting for public administration and defense clients, post-doctoral research at the University of Sussex in data science, and a junior data scientist position with a focus on computer vision.

Experimental Particle Physics PhD holder from the University of Sussex and CERN as member of the ATLAS experiment at the Large Hadron Collider. Experienced in problem-solving, time management, and analyzing large datasets. Has presented at national and international conferences and has a strong interest in engaging the general public through scientific outreach.

Industrial Experience

STMicroelectronics

Catania, Italy

Business Analytics Manager — *Jan 2025 – Present*

- Leading business analytics activities supporting Sales Operations and data-driven decision-making;
- Designing and implementing robust data solutions for microelectronics and supply-chain dynamics;
- Coordinating with cross-functional stakeholders to translate business needs into analytical tools and decision-support assets;

STMicroelectronics

Catania, Italy

Senior Business Advisor / Business Operations Support PM — *Jun 2024 – Jan 2025*

- Designing and maintaining analytical tools and dashboards for KPI tracking;
- Utilizing scripting and programming skills to automate tasks and support Sales, Marketing, and Operations teams;
- Managing small data projects to improve operational efficiency and support strategic initiatives;

Coca-Cola HBC

Remote

Senior DQ Analyst — *May 2023 – May 2024*

- Responsible for implementing and executing the business-led data governance initiatives to hold tight on the quality of the upstream part of the data value chain;
- translation of the data-quality business requirements to technical solutions;
- hands-on: implementation of the data quality detection and remediation through automation and modern data techniques;
- embrace agile: understand the iterative nature of data projects and welcome the changes to ensure high satisfaction for the downstream data users, and collaborate with multiple stakeholders and data users, including data curator, data engineers, data scientists, functional teams and functional data owners

Capgemini

Remote

Senior Consultant — *Mar 2021 – Apr 2023*

Senior Data Engineer and Team Leader in an international agile project focused on the delivery of an end-to-end business intelligence solution to explore customer demand and demand planning forecast analytics, fully developed on the Azure stack: Databricks, Data Factory, SQL Database, Synapse Analytics, Analysis Services, and PowerBI; DevOps and versioning best-practice with Jenkins and Terraform; code reviewer on Gerrit/GitHub/Azure Repos

Experis IT

Remote

Business Intelligence Consultant — *Sep 2020 – Mar 2021*

Data-engineering consultancy for Capgemini with MS Azure

R2M Solution

Remote

ICT Specialist / PM

Jan 2020 – Sep 2020

- Full-stack development of a custom ERP (Frappé)
- System administrator for on-premises and cloud-based (Google cloud, AWS, Azure, and Heroku) web solutions written in Python and Bootstrap
- Technical activities in research projects within the robotics, artificial intelligence, big data, energy saving, and IoT domains
- Delivery of high quality reports for research and innovation projects
- IT Service Management and help desk

Prisma

Catania, Italy

Data Scientist / Backend Developer

Jan 2019 – Jan 2020

- Data crawling: development of a crawler written in Python to get jobs and user profile pages from social networks
- Recommendation system: development of a ML tool (Python) to perform job-user matching in order to recommend the most suitable job for a given user
- Computer Vision: development of the back-end of a Web Application (Python, Flask) to perform real-time object detection using YOLO
- NLP: development of a deep-learning tool to extract information from a PDF; RESTful API integration (Python, Flask)
- Social-network Analysis: named-entity extraction and sentiment analysis on Facebook-post comments; RESTful API (Python, Flask)
- Management of micro-services on Azure with Docker and Azure Container Registry

Deckchair.com

Brighton, UK

Junior Data Scientist

Jun – Aug 2018

- Development of a statistical tool to select interesting images within a dataset (Python, skimage);
- Design of a ML tool to classify grey sky and sunset images (Python, sklearn, Keras);

Academic Experience

University of Sussex

Brighton, UK

Post-Doctoral Research Fellow in Data Science

Sep – Dec 2018

- Development of ML model to classify videos of trials as Truthful/Deceptive (Python, Keras, Tensorflow)
- Exploration of potential collaboration with other areas of research such as, Evolutionary and Adaptive Systems Research Group, Industrial IT and Signal Processing Research Group, Sensor Technology Research Centre

University of Sussex / CERN

Brighton, UK / Geneva, Switzerland

Doctoral Position

Nov 2014 – Oct 2018

- Developed Python code to perform multi-variable signal-over-background optimisations to define signal-enriched regions to enhance signal contribution while discriminating against background
- Modelling of main backgrounds using custom C++ framework
- Data-Driven estimation of an *irreducible* background and evaluation of related theory uncertainties (C++, Python, Excel)
- Participation in the development and commissioning of vertex reconstruction algorithm (C++)
- Validation of the changes to the used framework before release
- Monitoring of the performance of the tracking efficiency
- Development of a monitoring tool (Python) to display the results of the monitoring (plots, tables) on a web page (HTML)

Università degli Studi di Catania

Catania, Italy

MSc INFN-funded project

Mar 2013 – Jul 2014

- Developed C++ code to simulate physical distributions of the emission of protons from a nuclear source of a given size and life-time
- Validation of the simulations
- Deduction of the geometrical size and life-time of a nuclear source created in a heavy-ion collision at intermediate energy using data collected with the LASSA detector of the NSCL, Michigan, US.

Education

University of Sussex / CERN

Brighton, UK / Geneva, Switzerland

PhD in Experimental Particle Physics

2015–2018

Optimisation studies and data-driven background estimation in searches for the supersymmetric partner of the top quark with the ATLAS Detector at the LHC

Università degli Studi di Catania

Catania, Italy

MSc in Experimental Nuclear Physics

2009–2014

Protons emission and space-time characterisation in heavy-ion collisions

Università degli Studi di Catania

Catania, Italy

BSc in Physics

2005–2009

Study of neutrons spectra emitted by Am-Be and Pu-Be radioactive sources

Tech Skills

Languages	Python, SQL, Bash, HTML, JavaScript, C/C++, LaTeX
Database	MongoDB, MySQL, SQL Server
Versioning	Git, SVN
Web Servers	NGINX, Apache
Azure	SQL Server, Databricks, Data Factory, Synapse Analytics, Analysis Services, App Service, Container instances, Functions, VMs, CosmosDB, EventHub
AWS	EC2, Elastic Beanstalk, Lambda
Heroku	Apps and Pipelines
Data Science	sklearn, skimage, Keras, pandas, numpy, OpenCV, spaCy, NLTK, librosa, selenium, BeautifulSoup
DevOps	Docker, Jenkins, Terraform
OSs	Linux, macOS, Windows

Soft Skills

Teaching	Data-science group mentor; Classical Physics and Electromagnetism; Properties of Matter
Languages	English (Fluent), Spanish (Fluent), Italian (Mother tongue), French (Basic)

Public Speaking

Wider Topics in Data Science seminar series — *University of Sussex, Brighton, UK*

"5 years later: story of a transition from a PhD in Physics to a career in data science" — *Mar 2023*

1-hour seminar on the first five working years after the PhD

Wider Topics in Data Science seminar series — *University of Sussex, Brighton, UK*

"From academia to industry" — *Feb 2021*

1-hour seminar on the transition from academia to industry

DISCnet showcase — *Royal Society, London, UK*

"From Particle Physics to Computer Vision" — *Dec 2018*

10-min talk on the ML tool developed for Deckchair.com

HLT-UK Internal Meeting — *University of Oxford, UK*

"HLT tracking performance" — *Sep 2017*

15-min talk: Presented the result of the performance of the tracking of the ATLAS Inner detector

Phenomenology 2017 — *Pittsburgh, PA, USA*

"Searches for direct production of third generation squarks with the ATLAS detector" — *May 2017*

15-min talk: Presented the results of the searches for third-generation squarks on behalf of the ATLAS Collaboration

International Conference on High Energy Physics (ICHEP) 2016 — *Chicago, IL, USA*

"The Design and performance of the ATLAS Inner Detector Trigger for Run 2 collisions at $\sqrt{s} = 13$ TeV" — *Aug 2016*

Poster presented on behalf of the ATLAS Collaboration: Results of the performance of the ATLAS Inner Detector

STFC HEP Summer School — *Lancaster, UK*

"Direct pair production of the top squark in all-hadronic final states in *pp* collisions with the ATLAS detector" — *2015*

Poster: preliminary results of the optimisation of the regions of interest for the search of the supersymmetric partner of the top quark

Awards

2018	**Post-doctoral Fellowship,** STFC Impact Acceleration Account	*Brighton, UK*
2018	**Grant,** DISCnet	*Brighton, UK*
2016	**Doctoral grant,** Doctoral Overseas Conference Grant for Postgraduate Researchers	*Chicago, IL, USA*
2015	**Scholarship,** 4-year PhD scholarship in collaboration with CERN	*CERN, Switzerland*
2013	**Scholarship,** 1-year MSc scholarship in collaboration with LNS	*Catania, Italy*

Outreach

Jun 2018	**#ScienceOnBuses,** Participated in filming and engaged people on buses about CERN research activities	*Brighton, UK*
Nov 2017	**HiSPARC,** Helped middle school student build a scintillator for cosmic-ray detection	*Brighton, UK*
May 2016	**CERN Master class,** Talked to a high-school students audience about "The life of a PhD student at CERN"	*CERN, Switzerland*
Feb 2015	**Brighton Science Festival,** Engaged kids through games related to particle physics	*Brighton, UK*
